

**Thinking of moving?
Not sure where to start?
Then help is at hand....**

Seamless Relocation

Seamless Relocation provides a complete package of supporting care to help older people move. Whether it is to a smaller more manageable property or sheltered accommodation, we take care of everything to minimise the stress at a time of difficult choices.

People move on for many reasons. The current house may be too large or expensive to maintain on a fixed income. You might want to release money tied up in your house to fund other activities or to move closer to friends and family. Or your home is no longer suitable due to a change in health.

Why use Seamless Relocation?

After meeting you for an initial free confidential consultation, we will send you a fixed price quotation. As we offer a tailor made service our fees will depend on your needs – no two clients are the same. Being independent means we are able to offer impartial advice as part of our caring and personal service. With years of experience helping people move home, we are highly organised and happy to handle unusual requests. We keep family and friends informed if requested by you.

A lifetime of memories

We understand your home holds many memories and treasured belongings. Moving from a familiar home is not easy - we can guide you and your family through this transition. At Seamless Relocation, we take time to listen to your needs, concerns and preferences. Our goal is to make this change as positive and smooth as possible for you.

What help do I need?

Every situation is unique. We tailor our service to meet your specific needs. We are flexible and can do as much or as little as you want. These are the areas we often help clients with:

- In depth discussion of your needs – where you want to move to, why, when
- Assist with finding agents and surveyors to value/ buy/sell a property
- Find and short-list suitable properties to view. Arrange escorted tours
- Advice on how to handle price negotiations
- Prepare an inventory to assist with the sorting of goods
- Arrange for disposal, sale, or re-cycle of unwanted goods
- Organise packing and removals
- Take care of utility readings
- Notify organisations and friends of change of address
- Project manage the refurbishment of a new property - from trades-people to new furniture
- Assist on the day of the move
- Manage the probate sale of property

What people say about us:

"I am thoroughly enjoying my new life here and very glad I've made the move from my house to this flat. The people are very friendly and I've joined the local church and history society. Even the cat has settled in!"

Miss C, Surrey

"What you said about people regaining control over their lives is actually already happening - my sister has started to live again now she has made the move. I just can't express how grateful I am." Mrs E, London

"I just wish I had asked you to help me make this move sooner" Mrs W, Oxford

"I am so glad I called you to help move my parents and family into our new house. You were worth every penny." Mr J, Cheltenham and London

"Thank you for the efficient way you carried out the move to my new flat. The change was without stress or bother and my relative & friends thought you were all very nice people" Mrs C, Middlesex
